

capacitiq

Build smarter. Operate better. Show up stronger.

Service Guide and Pricing

All prices are in South African Rand (ZAR) and reflect standard package scopes. Custom quotations are available on request.

Who we work with

Capacitiq works with small and medium-sized businesses that are serious about operating properly. We are not a fit for everyone, and that is intentional.

- Startups and early-stage businesses that need structure from the beginning, not a cleanup project later.
- Growing SMEs that have outgrown improvisation and need systems, strategy and support to scale without chaos.
- Established businesses that are working too hard for the results they are getting and know something needs to change.
- Founders and owner-managers who are ready to work on the business, not just in it.

We work with businesses that want to grow intelligently and are willing to build the foundations to do it.

What Capacitiq does

We are a multidisciplinary business support agency. Across five service pillars we provide the strategy, systems, execution support and creative output that small businesses need to function properly and grow with intention.

Pillar	Discipline	In plain terms
01	Business Strategy and Operations	Build the foundation. Create the systems. Lead with clarity.
02	Marketing and Growth	Be seen. Be understood. Be chosen.
03	Public Relations	Shape the narrative. Build the authority. Control the conversation.
04	Virtual Assistance	Stop doing everything. Start running a business.
05	Graphic Design	Look like you mean business.

The Capacitiq difference

There is no shortage of freelancers who will take your brief and produce something. What is rare is a partner who thinks before they produce, documents what they build, and leaves you with something that works after they are gone.

Most agencies or freelancers	Capacitiq
<i>Deliver output and move on</i>	Deliver output and document how it works
<i>Charge by the hour and expand scope quietly</i>	Fixed packages with defined deliverables and no surprises
<i>Work in isolation from your business goals</i>	Every service is connected to a broader business outcome

<i>Offer one or two disciplines</i>	Five integrated pillars so you do not need five vendors
<i>You own the work but not the thinking behind it</i>	You own everything including the work, the thinking and the systems

How our pricing works

Our pricing is transparent, structured, and built to reflect real value. Here is what you need to know before you engage.

- Guide prices, not fixed quotes. The prices in this document reflect standard scopes for each package. If your situation is more complex, multi-phase or requires additional depth, we will prepare a custom quotation. You are never limited to what is listed.
- Packages, not line items. We do not charge per email, per document or per hour of thinking. Every service is a defined package with a defined set of deliverables. You know what you are getting before you say yes.
- Once-off projects and monthly retainers. Once-off packages are priced per engagement. Monthly retainers are billed in advance on the 1st of each month and cover a recurring, defined scope of work. Retainer clients receive a 15% discount on any once-off services added during the retainer period.
- Payment terms. Projects under R3,000 require 100% upfront payment before work commences. Projects of R3,000 and above require a 50% deposit before work commences and 50% on delivery. Monthly retainers are billed in advance and due on the 1st. Should an account fall more than 5 days into arrears, Capacitiq reserves the right to pause all service delivery.
- No hidden costs. What is quoted is what is charged. There are no setup fees, no surprise revision charges, and no costs for written deliverables included in your package. If something falls outside scope, we discuss it before we proceed.

Where to start

Every pillar follows a Ladder of Value starting with a focused entry package and scaling to full fractional or agency-level support. You can start at any point on the ladder.

Level	Starting from	Best for	Example
Entry (Ignite)	R1,200	Test the partnership, solve one specific problem or get clarity before committing to a larger scope	Business Ignite, Design Ignite, PR Ignite
Mid-tier project	R3,200 to R9,500	A defined business challenge that needs proper attention such as a strategy, a system or a press release	Brand Identity, Social Strategy, Lead Gen Funnel
Senior project	R12,000 to R22,000	Complex or multi-session engagements requiring deep diagnostic work, full documentation and strategic depth	Financial Strategy, Market Expansion, Brand Overhaul
Entry retainer	R3,500 to R4,500/mo	Ongoing support with consistent output for businesses ready to build month-on-month momentum	Starter Admin, Social Lite, Presence
Senior retainer	R12,000 to R18,000/mo	Full fractional support where we become part of your team and run a function on your behalf	Fractional COO, CMO On-Demand, Reputation Lead
